What happens at your appointment

The doctor or nurse will ask about your lifestyle and relationships, and any problems you might be having.

They'll carry out basic health checks, such as taking your blood pressure. **They'll also examine your genitals to rule out any obvious physical cause.**

If you have symptoms like needing to pee more often, your doctor may also need to examine your prostate. They might have to examine your bottom (rectal examination).

Treatment for erection problems depends on the cause. Treatments for erectile dysfunction are much better than they used to be, and the problem often goes away. **Narrowing of penis blood vessels, high blood pressure, high cholesterol**

Erectile dysfunction (impotence)

Medicine such as sildenafil (sold as Viagra) is often used by doctors to treat erectile dysfunction. It is also available from chemists.
